Subject: Procurement of Amphotericin B/Liposomal Amphotericin B Injection

Dear Madam/Sir,

We would like to inform that Government of India is looking for import of Amphotericin B/ Liposomal Amphotericin B Injection. The drug Amphoterecin B is emerging as one of the important drugs for the treatment of Mucormycosis patients, who have been treated with high doses of corticosteroids along with comorbidity conditions like Diabetes.

Further it is also requested that the above information may please be disseminated among your esteemed members. Details of the companies which are in position to export the said item to India, may please be provided along with the available quantities to export, prices, delivery time frame and contact details of the relevant person.

Priority should be given to the matter and please send response at the earliest possible by return mail.

Yours sincerely,
Ms. Maria Bakami
